G·TRONIC
DUAL IONIC 2500
Infinite power

A great combination of technologies made in Italy to offer the best drying & styling experience with the maximum comfort.

G-tronic combines the best technologies that our engineers have developed in the last few years to provide quality, reliability and professional performances. The result is an innovative hairdryer featuring a long life digital Gtron motor and a dual ionic switch for the emission of negative ions. Hairdressers can turn on and off the negative ions depending on the hairstyle they want to create.

These unique features make G Tronic Dual Ionic 2500 a perfect combination of power, innovation, durability and lightweight.

G-tronic is designed to help professional hairdressers by reducing drying time while protecting the hair health.
